EXPORT SUPPLY HOUSE

Corporate Guardian Inc. of Texas is an Export Supply House located in one of the major energy sectors of the world – Houston, Texas. Incorporated in 1999, we are a Supply Chain House fully catered to meet overseas client's requirements in the field of Oil & Gas Energy Sector – including Up-Stream or Down Stream & EPC Projects.

Expert Skills and Strong Relationships

Corporate Guardian Inc. is uniquely positioned to fulfill any procurement needs in the Oil & Energy sector. We have effectively established and continue to maintain a close working relationship with major North American manufacturers and overseas corporations, which has allowed us to successfully introduce client's products in international markets. With extensive overseas contacts, we have a record in facilitating Joint Venture Agreements or Exclusive Agency Agreements in the manufacturing sector.

Our Team possesses extensive knowledge of Saudi Aramco Material Systems Specifications (SAMSS), the minimum engineering, design, fabrication & testing requirements for Procurement of material and equipment. We provide competitive prices to local companies and EPC contractors in Kingdom of Saudi Arabia (KSA).

Additionally, we have developed a close affiliation with a major slickline tools manufacturing company based in the U.S. Our business has developed to include Malaysian and Brunei clients in marketing/supplying tools.

Supplies

Corporate Guardian Inc. is fully geared to supply competitive prices. Our suppliers/manufacturers mass-produce tools to the original designs for precision and ease of replacements.

Overview:

- EPC - Project Supply
- Well Intervention Equipment: Slick Line Tools
- Drilling Rigs & Parts
- Construction Equipment
- Custom Electrical Equipment and Solutions
- Refinery

EPC Packages:

- Sanitary Treatment Package
- Deaerator
- Refrigeration Package
- API Separator.
- Air Compressor Package
- Pump Packages

- Dissolved Air Flotation Package
- Firewater Pumps.
- Industrial Water Treatment & Purification of Chemical and Gases
